Chief Executive - Adults Supporting Adults

ASA - KEY MANTRA'S

- Innovate service models to fit with clients needs and National change
- Indulge in 'the vision' of change
- Person-Centred Focus put the client at the centre of all decision-making, everything else will fall into place
- Take the time to invest in all matters 'people' and embrace leadership
- Empower others to make their own lives better
- Partnerships we can learn more, drive quality and reach wider by partnering with public sector, private sector and other third sector partners
- Lean towards others and surround yourself with Experts
- A persons values and principals transcend to what they do
- Simply-it's about enriching peoples lives not making anyone rich!

CARERS & PERSONALISATION: IMPROVING OUTCOMES

Personalisation is a social care approach described by the Department of Health as meaning that "every person who receives support, whether provided by statutory services or funded by themselves, will have choice and control over the shape of that support in all care settings. Particularly with the launch of personal budgets.
