

# PACT

**PACT (the prevention and avoidance community team)** is 3 fold for the NHS - it's about reduction of bed blocking, it's a deterrent to stop people from going to hospital when their needs are not medical and it's about putting a stop to the 'winter pressures' cycle we (the UK) seem to enter into year after year!

It is based on a close collaboration between the NHS and the third sector. In addition to ASA, which takes the lead co-ordinating role, Lace Housing Association arranges transport from the hospital to the patient's home and Age UK Lincoln provides further or additional community-based social support such as domestic help and personal care. The scheme is entirely funded by LPFT but it is working in conjunction with United Lincolnshire hospitals NHS trust to provide the service.

## The Headlines...

'Pact reduces bed blocking at lch'

'Pact commissioned further to tackle winter pressures'

'East midlands ambulance service work with pact'

### Lincoln County Hospital in 1st 10 months...
